NAVIGATING SECURITY AND COMPLIANCE IN THE AGE OF AI: A DINNER DISCUSSION

January 29, 2025

6:30 PM-10:00 PM

Western European Time

Join us for an exclusive dinner in London where industry leaders and experts will delve into the critical topics of security and compliance in the rapidly evolving landscape of AI. As AI technologies become increasingly integral to business operations, and critical business applications, identifying risk, and ensuring robust security measures and compliance with regulatory standards is paramount. This event will provide an opportunity for discussion around the latest challenges and solutions in using AI in security, and the security of AI, including the management of AI service misconfigurations, vulnerabilities, and compliance. Attendees will gain valuable insights into how to assess and defend against AI risks, and how to protect AI infrastructures, secure data, and leverage this technology for enhanced threat detection and response. Don't miss this opportunity to network with peers and learn from leading experts in the field.
