THE "NEW" WORKSPACE

June 27, 2023

5:30 PM-9:00 PM

Central European Time

This dinner discussion focuses on the business strategies for creating an attractive office environment, empowering remote and in-office employees, balancing workforce dynamics, fostering collaboration across locations, and optimizing real estate costs while maintaining productivity within our organization. It highlights the importance of a supportive culture, leveraging technology, implementing a hybrid work model, promoting inclusivity, and adopting flexible space utilization. By implementing these strategies, organization business leaders can create a productive and inclusive workplace that attracts talent, maximizes our workforce potential, and aligns with our goals.
