MATURING SECURITY OPERATIONS: THE CURRENT STATE, THE HOLY GRAIL, AND PRACTICAL IDEAS FOR 2022

December 07, 2021

3:00 PM-4:15 PM

Central Standard Time (CST)

Most CISOs are under pressure to improve the effectiveness and efficiency of their security operations. While there is considerable noise about AI and next-generation detection and response technology, specific customer needs vary greatly depending on the maturity level of their current operations.

Join us for a panel discussion on how to evaluate your current security operations, learn from your peers how their journey has been and find pragmatic ways to take your security operations to the next level.
