PANEL

From Legacy to Intelligence: Modernizing Mainframes for the Agentic AI Era

3:15 PM-4:15 PM

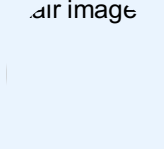

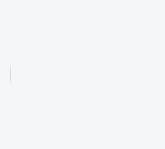

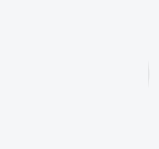

Legacy systems continue to power mission-critical financial operations, but they often limit innovation and scalability. This panel will explore how modernizing these systems is enabling institutions to transition from rigid, high-cost architectures to agile, cloud-ready platforms that power advanced AI initiatives.

The discussion will include real-world insights from one of our banking customers, where they'll share their strategic focus, modernization goals, and how working in collaboration with Accenture and MongoDB is helping them achieve their objectives.

Topics include:

- Strategic approaches to building resilient, AI-ready infrastructures tailored to customers' needs.
- Supporting advanced analytics and AI initiatives with modern, flexible data architectures.
- Driving innovation while maintaining reliability and compliance in the regulated financial sector.

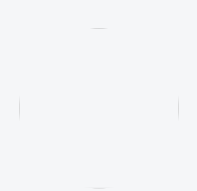

Learn from industry leaders and customers how these modernization efforts are creating scalable platforms that deliver transformational business value.

WINE TASTING Uncorking Innovation: A Taste of the Future Beyond Legacy Systems

4:30 PM-5:15 PM

End the event on a high note with a curated wine tasting, seamlessly blending networking with a dynamic roundtable discussion. Share real-world insights and strategies for moving beyond the AI pilot stage, building trusted data foundations, and modernizing legacy systems—all while exploring how innovation, much like great wine, thrives on complexity and thoughtful transformation.

Don't miss this opportunity to hear directly from industry leaders and customers about their modernization journeys, gain actionable insights, and connect with peers shaping the future of financial services innovation.
