July 26, 2022

3:00 PM-4:15 PM

Central Time

As we look to the near future, leaders need to be prepared to address rising costs, growing labor shortages, cybersecurity threats, ongoing supply chain disruptions and de-globalization trends. Organizations that will survive and go on to thrive as tomorrow's leaders will navigate the current economic conditions by successfully adjusting their business and IT priorities and investments now. Winners in this economy will be able to balance more efficient cost structures with innovation-driving investments to drive profitable growth.
