## AI IN THE WILD: TRUTHS, MYTHS, AND WHAT'S ACTUALLY WORKING

**October 23, 2025**

6:00 PM-9:30 PM

Central European Time

AI is no longer just a technical experiment, it's a business investment. As organizations push beyond pilots into production, leaders are asking tough questions: What's the true ROI? How do we scale responsibly? And where's the line between hype and reality? This exclusive, off-the-record evening brings together senior technology and business leaders for a candid discussion on what it really takes to make AI work at enterprise scale. Hear insights from experts building and advising on real-world AI systems, while sharing lessons with peers who are navigating the same challenges of adoption, scalability, and impact.
