## SHAPING HYBRID WORKFORCE SECURITY WITH SASE TODAY AND TOMORROW

**May 29, 2025**

5:30 PM-9:00 PM

Eastern Time

The Secure Access Service Edge (SASE) market is evolving fast—and 2025 is set to be a pivotal year.

- The top SASE market trends and technologies for 2025
  - How modern organizations are transforming security strategies with Unified SASE
  - A preview of upcoming Fortinet innovations that boost performance, security, and cost-efficiency
  - Expert insights on simplifying operations, lowering TCO, and gaining full visibility across distributed networks
- Gain a competitive edge by understanding where the SASE market is heading and how to prepare your organization today.

From finance to healthcare to government—if you're leading or influencing networking and security decisions, this session is built for you.
