

# Building Security into DevSecOps CISO Dinner

## SPEAKERS

**Rafi Buchnick**  
US Head of  
Technology & Cyber  
Risk  
RBC - Royal Bank of  
Canada

**Scot Miller**  
SVP & CISO  
Mr. Cooper

**Devon Bryan**  
Global CIO  
Carnival Corporation

**Anthony Gonzalez**  
CISO NA  
QBE North America

**Ibrahim Jackson**  
Founder & CEO  
Ubiquitous Preferred  
Services

**Anthony Gonzalez**  
Principal, Strategic  
Advisor  
Innervision Services  
LLC

## BUILDING SECURITY INTO DEVSECOPS

**November 09, 2022**

6:00 PM-9:30 PM

Eastern Time

Many organizations struggle with how and where to introduce automation and integrations efficiently. Conventional approaches to application security can't keep pace with cloud-native environments that use agile methodologies and API-driven architectures, microservices, containers, and serverless functions. Application security testing is evolving to meet the speed at which DevOps teams operate. DevSecOps teams are challenged with how to make sense of the noise their AppSec tools generate once they've been automated into DevOps pipelines. Processes and tools are more fast-paced and rely on integration and automation to maintain efficiency throughout the software development life cycle. A new approach to DevSecOps is required addressing a change in the security mindset. How do CISOs achieve this without the buy-in from stakeholders?

### CHAIR
