CREATING TRANSFORMATION THROUGH DATA & ANALYTICS

August 10, 2021

3:00 PM-4:15 PM

Central Standard Time (CST)

If digital transformation is a journey, then data is the fuel that transports your company from here to there. Comprehending and creating insight from data is transformational. Being able to gather and analyze data to generate a competitive edge, creates new opportunities and promotes innovation. However, to support a pipeline of up-to-date and competitive modern data and analytics, a sound foundation and architecture must be constructed.

CHAIR

Larry Whiteside
Co-Founder &
President
Cyversity
