COMPLIANCE: WHAT CAN BE DONE TODAY ABOUT TOMORROW'S CHALLENGES

November 01, 2023

3:00 PM-4:15 PM

Eastern Time

In the dynamic landscape of cybersecurity and compliance, 2024 looms as a pivotal year. CISOs and cybersecurity leaders are focused on safeguarding not just data, but the future of your business. For this intimate, virtual gathering we bring together industry experts to delve into the upcoming compliance challenges, including the formidable PCI DSS 4.0, and explore how proactive preparation can be a catalyst for business resilience.

Join us for an insightful journey that transcends checkboxes and audits, focusing on aligning compliance with broader business objectives. Discover strategies to enhance organizational agility, reduce risks, and ensure that compliance not only meets regulatory mandates but also fuels your business growth.
