NAVIGATING THE NEW THREAT LANDSCAPE: A CISO'S JOURNEY TO JOINED-UP SECURITY OPERATIONS

June 05, 2024

6:00 PM-9:30 PM

United Kingdom Time

Recent advancements in threats and Artificial Intelligence (AI) are changing the way that security teams operate. As a result, CISOs are having to consider the most unified approach to fortifying their organizations' defenses. Join us for an exclusive executive roundtable dinner where we will explore the key considerations that CISOs must take in order to deliver complete end-to-end surface protection. Our discussion will guide you through how threat enrichment, data quality and ingestion, and accelerated incident response, can keep your security teams one step ahead and breach-free.
